**Attn : Batch 2017**

Dated: 4-09-2020

Dear Students ,

At the outset I hope you are all doing well and in Examination preparation mode. During our college days it used to be a tough time when one would rush through the content and learn certain things in spur of the moment. Same must be true for you as well.

The purpose of examination is to evaluate a student for Knowledge , Comprehension and Presentation and certify that he/she is competent enough to having earned credits in his chosen area/s of specialization and is fit to move with his/her skill set in the milieu for seeking employment in terms of entrepreneurship , jobs or progression to higher studies.

When you are asked to sit for an offline examination , as per the regulations of statutory bodies , the aim is to legitimize the process of evaluation without putting any undue pressure.

Under CBCS scheme , your examination is MCQ based and considering the difficult situation that has developed due to Covid 19 pandemic college is going to offer you a very **formidable internal choice** to address your concerns and provide you a better chance of performance in the end term examination. Same will be notified separately.

Our concern is that a lot of your precious time has been lost to disruptions as you should have completed your degree by end of 2019. We want that by end of October the final marks transcript should be in your hands. It is a challenge for us to conduct your examination , complete evaluation and declare your results **within 45 days** . Our staff will work in an overdrive and deliver on our promise. Holding your final marks transcript will bring lot of joy and cheer to you. That is our moment of reward.

Don't harbor any apprehensions regarding safety as college will take all precautions and follow guidelines issued and you have to come for four or five days during entire period of examination. You should take all precautions which you are supposed to take at your end.

Come to college wearing mask , go straight to your examination hall to the seat already demarcated for you. Once your examination is over straight way move to your homes without creating discussion cluster which is a routine in normal times.

Best of luck.

Sd/-
