Dear Students,

You are aware that at our College Continuous assessment is part of appraisal of your academic achievements. Twenty five percent marks are allotted to you on the basis of continuous assessment consisting of four periodical tests T1 to T4 with equal weightage but variable mode of conduct. Seventy five percent marks are allotted to your semester end examination.

Continuous assessment has been introduced with the aim of assessing you continuously on your knowledge acquisition after a period of syllabus completion. The aim of these tests is not only to give you an idea about what is your progress in teaching learning process but prepare you to improve upon your performance.

To ensure the visibility of performance and for bringing more transparency in system it has been decided that the results of all continuous assessment tests shall be visible to students in their respective dashboard after same have been uploaded by the faculty on College LMS.

This will not only allow students to view their performance but will also give them an idea about scope of improvement so that with better performance in subsequent tests they can accumulate more marks in continuous assessment component of a semester examination.
